Synopsis

Human Geography 11th Edition Binder Ready Version teaches students to appreciate the diversity of people, places, and cultures, and understand the role people play in shaping our world. The goals of this edition are to provide geographic context to global, regional, national and local issues and to teach students to think geographically and critically about these issues. Human Geography: People, Place, and Culture features beautifully designed maps, dozens of vibrant photographs taken by the author team, and author and guest field notes that help students see how geographers read cultural landscapes and use fieldwork to understand places.Ã Â A newly designed demographic data table includes economic, political, and population data, all of which can be examined in ArcGIS Online. This text is an unbound, binder-ready version.

Ã Â Author, professor and television personality Harm de Blij (pronounced duh Blay) for seven years was the popular Geography Editor on ABC’s "Good Morning America". In 1996 he joined NBC News as Geography Analyst, appearing mostly on MSNBC. His series "The Power of Place" continues to air on PBS stations. Ã Â Born in the Netherlands, de Blij has a unique range of educational experiences. He received his early schooling in Europe (part of it during the Second World War as recounted in his memoir Wartime Encounter), his college education in Africa, and his higher degrees (Ph.D., Northwestern) in the United States. His scholarly work has been recognized through honorary degrees awarded by Marshall University, Rhode Island College, Grand Valley State University, North Carolina State University, and Michigan State University. Dr. de Blij has

published more than 30 books including scientific, educational, and trade titles, and over 100 articles. His textbook Geography: Realms, Regions and Concepts (Wiley) has exceeded 1 million copies in 11 editions since 1970. He specializes in geopolitical and environmental issues, and has held named chairs at Georgetown University, Marshall University, and the Colorado School of Mines. Dr. de Blij currently is Distinguished Professor of Geography at Michigan State University, where he also taught throughout the decade of the 1960s. In the interim, he chaired the Geography Department at the University of Miami and served as editor at the National Geographic Society. His advocacy of Geography in the media and on the public lecture circuit has taken him to virtually all corners of the United States; his work in research, teaching, and television has spanned the globe. In 1994 National Geographic Society President Gilbert Grosvenor appointed Dr. de Blij an Honorary Life Member of the Society. Ã Â --This text refers to the Hardcover edition.

I rented this for my cultural geography class this past semester and it was an extremely helpful textbook. It was one of the few textbooks that isn't a headache to read. All the information was clear and easy to understand. I would not have gotten an A without this textbook!

This can only be used on computer or an iPad or kindle fire and not a Ian Kindle. That said it is very easy to read very easy to navigate and I find being able to read along with my son when he's doing some of this harder assignments is an enormous helpSo much cheaper than a tutor

Many of the pictures show up in pink and green rather than the correct colors. Seeing as how this book has quite a few pictures, I find this really annoying (the maps are okay though, it's just the actual images that are weird). I would expect better from an ebook. The book itself is also poorly written, with many sentences repeated almost word for word multiple times throughout a single chapter.

I bought this book as a required book for an online Human Geography course. It was actually really interesting! I've never actually enjoyed a textbook before this one! I would definitely recommend staying on top of your studies if you are taking a similar course because there was a lot to cover.

Very good author for human geography.

i had to get this book for class and it really didn't even seem like class because i enjoyed reaading

about other cultures, etc. i would recommend renting the kindle version because come test time (in an online class) you can search for key words. it really made things easy!

I bought this book for my son's AP Human Geography class because he did not like the online book and prefers a hardback. He is grateful for this hardback book!

Great book! This book gives you answers to the questions we have in regards of why some people are starving to death and why are we where we are. Great book to read.
