Synopsis

Concise yet thorough guidance on how to safely and competently care for adult, critically ill patients and their familiesA Doody's Core Title for 2017!Endorsed by the American Association of Critical-Care Nurses (AACN) and written by top clinical experts in critical care nursing, this textbook covers all the must-know details on the care of adult, critically ill patients and their families. Supported by helpful tables and algorithms, the bookÃ¢â ¬â„¢s practical, building-block organization starts with the basics before proceeding to more complex concepts. AACN Essentials of Critical Care Nursing includes essential content found in ECCO (Essentials of Critical Care Orientation, an online program offered by AACN), key information necessary to successfully prepare for CCRN certification in critical care nursing, and much more. AACN Essentials of Critical Care Nursing is divided into four sections:THE ESSENTIALS -- presents core information that new clinicians must understand to provide safe, competent nursing care to all critically ill patients, regardless of their underlying medical diagnosesPATHOLOGICAL CONDITIONS -- covers pathologic conditions and management strategies commonly encountered among adult critical care patients ADVANCED CONCEPTS IN CARING FOR THE CRITICALLY ILL PATIENT -- moves beyond the essentials and presents advanced critical care concepts or pathologic conditions that are less common or more specialized than expected in critical care practiceKEY REFERENCE INFORMATION -- features normal laboratory and diagnostic values, algorithms for advanced cardiac life support, troubleshooting guides for hemodynamic monitoring, summary tables of critical care drugs, and cardiac rhythms and treatment guidesLearning aids include Knowledge Competencies that can be used to gauge progress and "Essential Content" case studies with questions and answers to further reinforce your knowledge.

Customer Reviews

Suzanne M. Burns, MSN, RRT, ACNP, CCRN, FAAN, FCCM, FAANP (Charlottesville, VA) Professor Emeritus, School of Nursing, University of Virginia; Consultant, Critical and Progressive Care and Clinical Nursing Research.

If you're new to critical care you need this. I have it on my kindle app so I can use it as a reference at work. Love it

I like the contents of this book, but for CCRN preparation, I think Pass CCRN! served me better.

This book was recommended to me by multiple seasoned ICU nurses. I'll be a new grad starting in ICU in a few months so I'm getting started in it. Very thorough text book. Worth every penny if you know you'll be in ICU

This is an excellent resource book and a great addition to a nursr's library

I like books that has illustrations that goes with the text. This book has limited illustrations although topics are in depth.

Fantastic resource!

This book was very interesting for basics in critical care. It provided a general overview of all the systems. As a Cardiac nurse it was a nice review of the other systems.

I'm a first year nursing grad working in a med surg icu operating in a hospital with 300 beds and a heavy geriatric patient population. We do alot of neuro and post op care. I swear by this book. Breaks everything down that you need to know in an easy to read format.
