This flip chart of attractions in Sydney was interesting but not very useful. While I checked out the recommended attractions I did not bring the book with me on my trip to Sydney. Online research will suffice if you are heading to Sydney and this guide will probably not provide any suggestions that will be helpful.

Cute idea but really not too handy. Really not enough information is offered to use the book to decide on our daily destinations

This book has a clever method of planning your day of touring with flip pages to mix and match different activities. You will need to use the Internet for more details. I did find it helpful and used it quite a bit while in Sydney.

Best for a short visit where you only have time for the highlights.

I can not wait to go to Sydney in a few weeks to really utilize this book. So far I have loved it with its ease of planning your trip in so many different ways depending on what the day throws your way. It also has a great map at the back and has helpful tips such as how much to tip and key activities to try.
