Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

My daughter wants to be a doctor and loves learning about the human body - this book is great!

Very good condition and helpful for teaching life science.

I am using this textbook as part of my homeschool curriculum for my 10 year old, 5th grade son. It is absolutely great. It covers the main body systems (including reproductive- which many leave out). This book gives a great introduction to kids about how the human body works. It actually gets into details- it is a textbook so it gives more information than the common kids human body books. I am

very glad I found this book and highly recommend it as a great way to teach kiddos about the body.

Great book to use in homeschooling a seventh grader and a ninth grader. Thanks!!
