Review for 'When Giants Were Upon the Earth". As a Christian Bible reader of many years, I was not sure what I was getting myself into by buying and reading this book. ( I do have other books that are not part of the Bible such as Mr. Godawa mentions for reference.)Mr. Godawa has made careful and thorough research on the subject of the Nephilim which is only briefly mentioned in the Bible. He has broadened my understanding of little known facts about the giants and the pagan beliefs of other cultures. I was pleasantly surprised and pleased that a Hollywood screenwriter would do justice to the teachings of God. I do disagree with him about his ideas about satan - I believe he is an individual spirit being and the leader of the other angels that revolted in Heaven. In the New Testament we note that he is ruler of this world John 12:31, he transforms himself into an angel of light II Cor 11:14 and he is also a roaring lion 1 Peter 5:8.I am not totally finished with this book yet but I am hoping that there is information on Nimrod.I would recommend this book for Christian readers who want Bible information 'fleshed out' and explained and about the sons of God, the Nephilim etc.

This is a very interesting compilation of research into ancient history. And it's well documented.

Excellent info.!

good companion to other novels

This book is well written and explores the possibility that the giants mentioned in the bible in Genesis 6 and elsewhere were the Nephilim, the offspring of fallen angels and human women.The book studies all angles of the giant/nephilm theory and is very in depth and research is supported by biblical and other sources.The book is 633 pages long and very comprehensive.Very interesting

theory and book is hard to put down, keeps you interested.This book is available as a free ebook for a limited time so download now while you can.

Brian Godawa's new book, which is the compiled appendices of his Chronicles of the Nephilim series, is a fantastic resource. He has done all the hard work neatly organizing all the Biblical references and information in an interesting and easy-to-understand way. A perfect reference book for some of the most interesting and fascinating mysteries of the Bible.

Very informative about ANE history and mythology, and how we (Moderns) must learn to interpret scripture more deeply from their perspective and cultural language and literary forms. This book is about the theological foundations behind his fictional series. Very interesting.

Much of the information contained in this book will be novel for those who just grew up in church. Brian Godawa seems to have good scholarship to back him up even though the information in this book will change the way you read the Old Testament forever.
