Synopsis

Part Two (of Three)As Ashley settles in to her life at the lodge, she meets more of her new pack mates--including wicked, intense Jud. His touch arouses her hunger--and Blake's possessiveness. Lucas, the unyielding alpha, grows concerned with the attachment between Blake and Ashley and sends Blake out on a mission.While Blake is away, Ashley meets the most elusive member of her new pack--the enigmatic Connor, a hacker who, like her, was raised among humans. For Connor, sex is volatile--dangerous--and being near Ashley draws out the feral edge of the wolf inside him. As Ashley's connection with Blake--and with Lucas--grows deeper, an outside force threatens the peace of the Last River pack.Protecting Their Mate was originally published as an eight part serial under the penname Mia Thorne. It has been repackaged, but the story remains the same.

Customer Reviews

After Blake takes Ashley back to his pack, the search for her Mate is Task #1 for the whole pack,

and a new threat to their pack, has made it even more urgent...And the further it goes, the more Blake believes he is truly the only one to be Ashley's true Mate for life, but due to the fever Ashley has and the sheltered life she has lived, he is not only willing to wait for her wolf to make her decision, but he is also willing to share her with his pack mates to help her realize who her true Mate is...ÃƒÂ Ã Å¸Ã â•Ã Â¥ÃƒÂ Ã Å¸Ã â•Ã Â¥This is a book of true selfless love, and it helped me understand the love, respect and workings of the "pack hierarchy," all of which, I had no understanding.This is a good book, and it definitely held my attention and forced me to want to continue into this genre...and onto Book 3....ÃƒÂ Ã Å¸Ã â•Ã Â¥ÃƒÂ Ã Å¸Ã â•Ã Â¥

This is part two of Moira Roger's Protecting Their Mate serial and I wouldn't recommend reading it as a stand alone so make sure you've read part one first. If you're looking for a hot new series to try then I'd definitely recommend this though. You may have read these author's books under their other pen name, Kit Rocha, in which case you'll already have a good idea how spicy this is going to be. Imagine the O'Kanes were werewolves and you should have a pretty good idea where it's going!This continues Ashley's story now that she has been rescued by Blake and taken back to the home of his pack. Blake is already head over heels for Ashley but he knows it's her wolf who will decide who her mate is and he's convinced that her wolf will pick the pack alpha Lucas because he's the strongest but that doesn't mean he won't fight to claim her for himself. Lucas worries that Blake has become too attached since Ashley hasn't made a decision yet so he sends him away from their base on a mission which leaves her with Connor and Mac when the mating fever takes hold.I'm having a hard time now choosing which of these wolves I like the most, they all have different charms and as much as I'm rooting for Ashley and Blake to end up together I'm already really looking forward to Connor and Mac's story. I'm pretty confident that they'll end up in a triad relationship with some lucky female wolf and I can't wait to see who it is that wins their heart! I hope we get a book for each of the wolves though because I definitely want to see more of Jud and Lucas too.This serial has a heavy focus on the steamy times and it definitely falls on the more erotic side of paranormal romance but I'm enjoying every minute of it. There is still a plot going on in the background though and now that Lucas and the others are arranging to meet with another pack I think things are going to get even more interesting. I'm looking forward to reading the end of Ashley and Blake's story (I refuse to consider she'll end up with anyone else!) and I'm definitely hoping that Donna and Bree (the writing team behind Moira Rogers and Kit Rocha) are planning more books set in this world.

Three and a halfSecond part of the series that was originally published under the pen name Mia Thorne although I think most readers will probably recognise the more recent name of Kit Rocha that this pair use for their dystopian and blatantly sexual stories. I feel I should point out this is novella length and follows the arrival of Ashley into a werewolf pack that is all male and all apparently very hungry for a mate of their own!Ashley was brought home by Blake but he knows full well that her inner wolf will choose the strongest for its mate. Blake is very possessive of Ashley but knows that as she descends more into the mating fever he won't be the only one to satisfy her needs. Blake is sent away by the alpha Lucas leaving Ashley with pack mates Mac and Connor who actually came across to this reader as a couple. Mac is fully confident in himself but Connor is like Ashley and grew up outside a pack which means he fears truly letting go in case his base instincts overcome him. Blake returns knowing that Ashley still wants him but will her wolf accept him?Hmm I did prefer this to the first part as the pack dynamics are being expanded. It is full of sexy times and exploration so if that not for you then you have been warned. If you've read the Beyond series then you will know that this duo delight in delivering kink in all its many forms whilst at the same time giving readers a love story. I'm not really feeling the love side if honest but I am enjoying getting to know the pack and so far Ashley has been 'fully introduced 'to not just Blake but also Jud, Mac, Connor and Lucas. Certainly Ashley's life has been spiced up but as this episode ends there's another pack set to arrive in their territory and who knows what will happen?As a romantic I'd like Blake and Ashley to be together but with this pair writing it wouldn't surprise me if the whole pack bonded with Ashley! Perhaps more sex than story at times but if you want a book to raise your temperature then this will deliver!This voluntary review is of an advance copy and my thoughts and comments are honest and I believe fair
