Synopsis

ALEKS is an artificial intelligence-based system for individualized math learning, available for Higher Education from McGraw-Hill over the World Wide Web. ALEKS delivers precise assessments of your math knowledge, guides you in the selection of appropriate new study material, and records your progress toward mastery of goals. ALEKS interacts with you much as a skilled human tutor would, moving between explanation and practice as needed, correcting and analyzing errors, defining terms and changing topics on request. By accurately assessing your knowledge, ALEKS focus clearly on what you are ready to learn next, helping you master the course content more quickly and easily.

Customer Reviews

Item was as was listed correctly and as expected.

used for college program and I love it!

I actually think it is cheap on the ALEK website

good

Exactly like at the university but for a lot less.

Got the code in a reasonable amount of time. Amazing to have to pay so such for a paper with a code but this price was unbeatable! The code worked and gave me an entire semester or access!

Required for class but ended up being a good program. Am choosing classes with the same software. Difficult at first but once you get used to it it is an excellent program.

I guess this is the new business model but really seems a rip off for parents of students. Text was fine just the business model
