Customer Reviews

This is a fabulous resource for up and coming romance writers. I liked it so much that I bought it in paperback and it is definitely a keeper. Ms. Ayala really breaks down romance writing - for seasoned writers and newbies alike. I learned a lot and am happy to say that I was able to come up with an idea for a new novel immediately and started writing it today! The best part of the book was the explanation of how tropes work, something I was honestly fuzzy on before. I figured out I wanted to do a Friends to Lovers book and that's what I'm doing. This book is highly recommended.

This book came along at the perfect time. My writing was really lacking something I couldn't put my finger on. It helped me focus my efforts and for the first time I'm actually close to finishing a manuscript that I'm pleased with.

Great guide to writing Romance! I highly recommend this book!

This is an excellent guide. Concise and informative!

As a romance author and NaNoWriMo champ, I love month-writing challenges. It makes me productive and helps me reach goals I would otherwise procrastinate on. This book gives great prompts and explains all the basics of writing a romance novel while also providing a built in critique community with the Facebook Group.

The title totally misrepresents the book. It has nothing to do with writing a book in 30 days. The author has used this as a gimmick to sell the book. Principles of writing a romance are summarized but explained too briefly to be helpful (the whole book is only 98 pages long with some of those pages just hyping her workshops and another book). I seldom feel this cheated by a product description but this is one of those times, glowing five-star reviews notwithstanding. This book is going right back. Bless for its easy return system.

I took the original writing class that this book is based on and it was so fun and informative! I wrote a contemporary romance in one month and had a lot of fun along the way. The book gives clear goals and motivations about what sort of things to include and what to skip, and all the information in the back section is beyond helpful! Tips on creating titles, first date ideas, types of characters and how to make them greater than their stereotype. There's a lot of good, solid information packed into this little textbook! I feel like I'm a more productive writer since learning it!

Can you write a romance novella or novel in a month? IÃƒÂ¢Ã â ¬Ã â„¢m still skeptical about how many writers can actually accomplish this endeavor. To write an honest review about this book I felt I needed to try and write a romance in a month. I took out the book and followed step by step as I attempted to write my romance.Romance in a MonthOne important point to carry out this feat is to limit the subplots, start with a trope, a clichÃƒÂ© to be precise, and characters the reader can identify with easily.The book has several exercises to help the writer develop the characters and plot.Is the book a good guide for someone who has never written a romance or any book for that matter?I could not write a novella in one month, I missed the deadline, but what the book does do is make the writer think about the important elements required for a good romance. The book will only be helpful to those who are serious about writing a good quality story. If you are not serious, donÃƒÂ¢Ã â ¬Ã â„¢t bother with the book. If on the other hand you are serious, I recommend this book that will guide you through the writing process step by step.
