Too expensive :(

I'm shocked that I was sent a hardcover book with the back cover literally falling off. Now I have to send back and order another book in time before school starts. It's very inconvenient. Not to mention I don't want to be blamed for the cover falling off. How do they expect me to use a book that's falling apart?

Loved it! I didn't even know renting school books from here was a possibility and I'm glad I did it.

Ordered this book for my math class. It's great easy to fallow and the explanations and examples are great. Glad our professor asked for this book.

Very good shape.

Excellent service, very fair pricing, and FAST, FAST, FAST delivery. I couldn't be happier!
