Customer Reviews

This was great for choosing which areas we wanted to visit because of those great descriptions, almost poetic. I do recommend it for that. This book will help you pick places to visit in Italy and help

you discover the beauty and pleasures of being in Italy. It will help you to figure out a budget for your trip and also some good ways to cut the costs of an Italy trip. This is a great guidebook that could cover things there to do and see in Italy. I found this book easy to read and full of lots of useful information. Great book to have and easy to read and follow.

This year I'm going to visit with my friends in Salerno, a town in Italy. Of course, I will visit Rome and some other cities in Italy. This book I picked up because I want to know in advance about places that are worth visiting. The book is very informative. Here you will find a lot of useful information on several cities, as well as important phone numbers. If you are planning a visit to Italy, then this is the book for you. Recommended!

Italy is one of the ancient cities that must be included in anyoneÃƒÂ¢Ã â ¬Ã â„¢s travel bucket list. I liked the information shared by the author particularly the common phrases needed by any tourist, especially the first-timers. It could have been better if the author included pictures to help the reader identify places easier. It is good that there are links to the websites of some of the recommended establishments. These help a lot.

Italy has always been a travel destination in my list hence I picked up this ebook to understand better on where are the interesting places to go to in Italy. The tips provided are all so helpful and practical! It really helped me so much in my holiday planning. Useful book!

Mis-spelled words, not much depth or content. Light reading with light content.

If I go to Italy, I would totally follow this travel guide. It's complete in details and the recommended places and activities seem really invinting and fun. This book is definitely for keeps.

Didn't cover any of the main cities...Rome, Venice, Florence etc...only 67 pages that were poorly edited.

Did the reviewers REALLY use this book on a trip to Italy? The 63 page book (it says 68, but the first section, "About Italy," starts on p. 5) measures about 9" x 6", has wide margins, large print, and double spacing between paragraphs. The space below the last line on each page is about 2", so really you're getting about 6" x 4" of large text on each page. No photos. Not well proofread.When I

was looking for a guidebook, I counted on these reviews and that Turin was included, but I found both to be inaccurate. I ordered "Italy: Where To Go, What To See - A Italy Travel Guide (Italy, Milan, Venice, Rome, Florence, Naples, Turin Book 1)" and what I got covers instead: Bologna, Brindisi, Pisa, Salerno, Verona, and Il Desco. What a waste of my money. Even if it did cover the region I was interested in, based on the content of the copy I received, I'm guessing it still would be of very little use. I would give this guidebook zero stars, but I can't.
