Customer Reviews

Another action packed adventure with Zeb and crew! The action is fast and furious in a setting that

could be all too real! If you are looking for a series that will keep you reading all night this is the one. Ty Patterson’s writing is quick and to the point with a very complex leading character and a great supporting crew. Looking forward to the next book in the Warriors Series. And if you missed out on "Hunting You", the previous Zeb Carter book, pick up a copy, you’ll be glad you did!

Zeb Carter and his team are a kick ass bunch, always working for the good of others. While celebrating at a hotel, a group of terrorists take a group of people hostage. Zeb and his associates work effectively in taking care of the terrorists with a lot of twists and turns.. Packed with action. If you love action packed mysteries, this is the book for you

All 8 of these books were 5-stars each. I started them one at a time. When I finished the first four and the second four came up all at once, I got them all at the same time. I tried to read them slowly, or at least read something different between them. It didn’t work! I would finish with one book and go directly on to the next. They were so exciting and full of action, with the Warriers doing exactly what you want them to do. Now that I have finished the entire Warrier series, I am delighted that the next series, the Gemini Series, continues with the same people in it. How long before the next series begins? If it hasn’t started yet, what am I going to do for my daily Ty Patterson fix?

On long term averages I give a five star rating once for every 13 books I read. This is a five star book. The suspense and the action never let up. Character development is done gradually throughout the book and is not overdone. I appreciated that we are not regaled with the vices (if any) of the heroes and heroines as a part of the narrative. Other reviewers have noted (in other terms) that the intuitions of Zeb Carter take him and his team further than seems reasonable. I agree. Nevertheless, the story is close enough to believable and so satisfying in terms of most details and closure that I stick with my rating. My only other reservation was that (spoiler alert) it is inconceivable to me that the shooting death of two U.S. Senators (even though they were scumsuckers) did not raise a major hue and cry in Washington.

The vice presidents son and his best friend are kidnapped. The FBI is in charge, but getting no where. Zeb and his covert team are brought in. This is a tremendous read! A nonstop action thriller!! Suspense, intrigue it’s got it all!! I enjoyed tremendously!!!

A top notch action thriller with a well developed plot. Has non-stop action with great realistic

characters. Hard to put down and provides for a very enjoyable read. Great ending and a truly great series. Highly recommended book and series. Keep the Warrior series coming.I received this book from the author in exchange for an honest review, but also purchased a copy.

This is the first book in The Warriors series that I have read. I didn't know what I was getting into, but I was instantly drawn into the book. I like the way the characters were described in the way they were developed, I like their little quirks. I realize that I am suddenly reading a lot of political thrillers and some are better than others. This is a good one! I look forward to reading others by Ty Patterson.

I love these books and the characters. If you like Reacher, I think you might like these. Zeb's character is like Reacher with more compassion and skeletons in his closet. They are action-packed, but it is the characters that keep me reading. My hope is that someday Zeb will find the happiness he deserves.
