I love this coloring book! The images are of lots of gardens and flowers and walkways. There's buildings and birds and trees. The detail is amazing, not so simple as to be too easy, yet not soo detailed to make me afraid of making a color mistake. The detail is just right. I love every image and can't wait to get started. The price was very good for such an amazing coloring book. I also like that the lines are light grey instead of the traditional black. This way when I'm done coloring an image, I shouldn't see any of the lines. This makes it more true to form as in nature, there are no lines.

I like that this book has perforated pages so I can take it out when I am working on a page. I think this is probably better for watercolors, though.

Have enjoyed this coloring book very much. The outline is gray, not black, so you have to color this a little differently but the pictures have come out so nice.

Such lovely pictures. I love that the pictures are not super intricate.

i buy these coloring books for my 86 yr old mother who likes to color to keep herself busy.she likes these books because there is a colored picture of all the flowers in the book so sheknows what color to color them with.

Dover's Flower Gardens to Paint or Color coloring book is one of the best I have ever bought. It is surprisingly hard to find landscape-type coloring material for adults or older children. This book combines a landscape background with larger flower images toward the front. I am really enjoying this one!

Beautiful scenery of gardens and flowers to color. Too detailed and involved for children, but great for adults. Suggest coloring with pencils instead of crayons for true beauty and detail.

NICE ADULT COLORING BOOK.
