Easy learning

My daughter has really enjoyed these books. She spends lots of time using them to continue growing and becoming more and more advanced.

Good price and super convenient when delivered to the door. Thanks

Good sutff!

I have been a piano teacher for over 25 years and I have tried different books, but I always go back to Alfred. These are my favorite.

I am a private voice and piano instructor, and I have found Alfred's Basic Piano library to be an

excellent teaching tool for very beginning students to the intermediate student. It is best to incorporate all the "core" books in the series (Technic, Lesson, Theory, Recital, and possibly one other of your choosing...there are many to pick from, such as Hymns, Popular Songs, etc.). Each book supports what's being taught in the other books and I have seen a great deal of progress in my students while using this series. Almost all of my students now work from the Alfred Series. A side note...I LOVE because you can buy the books used from outside vendors. Lessons are an expensive investment and you don't HAVE to have brand new books to start out with. Gently used ones are great for the very beginning students...but even if you do buy brand new, they are reasonably priced and are well worth the money.

I am a piano teacher and have used this book series for boys starting piano at ages 9 and 10. It is perfect for this age level and gender.

I'm a teacher and Alfred series is my favorite to teach out of by a mile.
