Synopsis

There is something very calming about coloring that adults are getting addicted to it. Perhaps it’s the repetitiveness of strokes or maybe the freedom to choose colors. Whatever it is, it’s proven to be really effective. In fact, therapists even recommend coloring as a way of coping with stress. So if you’re feeling under the weather and the weight on your shoulders is already too much, color away!

There are no designs in this book that even remotely resemble the one on the cover. I have several dozen adult coloring books and this one is by far the absolute worst. It should not be considered an adult coloring book, and even calling these designs mandalas is a stretch. The paper the designs are printed on is of very poor quality, and they warn you, on every page, that markers and PENS will

bleed through. Save your money!

These are just fun and keeps the child entertained for long periods of time. Not just for children... for anyone. Lots of fun
