Synopsis

Meteorologist C. Donald Ahrens and new co-author Robert Henson combine the latest in weather, climate, and earth science to introduce students to METEOROLOGY TODAY, 11th Edition. Grounded in the scientific method, this engaging and highly visual text shows students how to observe, calculate, and synthesize information as budding scientists, systematically analyzing meteorological concepts and issues. Specific discussions center on severe weather systems, such as tornadoes, thunderstorms, and hurricanes, as well as everyday elements, such as wind, precipitation, condensation, masses and fronts, and the seasons. Events and issues dominating today's news cycles also receive thorough attention, and include analysis of Superstorm Sandy, the Oklahoma tornadoes, recent findings from the US National Climate Assessment and the Intergovernmental Panel on Climate Change, and more. METEOROLOGY TODAY, 11th Edition is a dynamic learning tool packed with self-testing features such as end-of-chapter summaries, key terms, review questions, exercises and problems, live animations, web links--and even a full online course from MindTapÃ¢â Â¢, complete with interactive tools that take student learning to atmospheric heights.

Customer Reviews

Don Ahrens is Professor Emeritus at Modesto Junior College in Modesto, California. The bestselling author of two Cengage Learning texts, Professor Ahrens received the Textbook and Academic Authors Association's McGuffey Longevity Award for the 9th Edition of his market-leading

METEOROLOGY TODAY. He has influenced countless professionals in the field of atmospheric science as well as hundreds of thousands of students who use his books to better understand weather and climate. In 2007, the National Weather Association awarded Professor Ahrens a lifetime achievement award for these accomplishments.

I needed this book for my weax class. I like this book and has good colored pictures and is easy to follow.
