My daughter loves all these books with animals in it of course from this particular author. She is 8 years old and reads well beyond her level. We have already completed a book project on this one:)

Do you like bunnies? This book is for you or anyone you know who likes bunnies. My 7 year old son loves bunnies. They’re his favorite animal. He has had a pet bunny for 3 years now. Once he got over the pink cover (took him about 6 months), he finally gave it a read. He loved it! He is now wanting the second book. If this book can get my "I hate reading" boy to read and finish his first chapter book, that’s worth 5 stars in my opinion.

I am shocked by the extreme racial undertones of this book. My daughter enjoyed the Magic Puppy series and I thought she would like the bunny series also but was so upset after we read the first chapter and to hear the language of the evil dark bunnies against the white bunnies. This book should never have been published.

My 7YO daughter loves the magic animal series. She says the animals are funny and they have lots of cute adventures. The pets are magical and help humans.I am happy to have found another series that gets her excited about reading. There is also a Magic Kitten, Magic Puppy, and Magic Pony, so she should be busy reading for a while! I am able to get a lot of them at our library, but I'm glad carries them for the ones the library doesn't have.

My 8 year old loved the book

Saccharine and shallow. How these books have achieved such a readership is beyond comprehension.

This was my first book in the Magic Animal series and I loved it! I liked it so much i got a copy of it for Gigi; my BFF. The bunny named Arrow is cute and his owner loves him! My favorite part of the book was when Cassie took him home with her. It might be fun to read for little girls who are a big fan of bunnies and who can read second-grade books! I really like this book and you will, too!

I think chocoLate wishes is in amazing app in my opinion I just rEally think you guys will love it
