Synopsis

What’s more fun or magical than digging in the dirt, planting and watering seeds, discovering the first seedlings of the season, and finally eating your own fruits and vegetables? Lovingly illustrated by Olivia Cosneau, this book is a colorful introduction to the magical world of the garden, including a range of fun activities, removable stickers, and a quiz. In the process, fledgling gardeners ages five and up learn about the different types of vegetables and fruits they can grow, how to care for them, what tools they need, and many other interesting facts.

Book Information

Paperback: 24 pages

Publisher: Princeton Architectural Press; Act Csm St edition (March 7, 2017)

Customer Reviews

"Peak your little one’s interest in where food comes from with this veggie-based book. The colorful stickers are beautifully illustrated, and there’s plenty of room for scribbles and drawings." - Red Tricycle"These are the rare activity books that can hold their own on the quirky, information-packed writing and exquisite artwork (reminiscent of midcentury American illustrator Charley Harper). Once the kids have absorbed a few facts, they’ll be ready to go crazy with the irresistible glossy stickers (100 or so in each book) and their attendant sticker projects." - The New York Times Book Review

Olivia Cosneau is an illustrator who lives in France. She obtained her diploma in Fine Arts at the University of Nantes in 1996 and has two children. She has illustrated several children’s books,

including the Adopt Me series, as well as the My Nature Sticker Activity Books first introduced by PAPress in 2016.

Lots of info on gardens and things to color. Fun book for 4 year old.

Wonderful activity for me 3 yr old and I to do together. Factual and beautifully constructed. Not too busy.

This sticker book is a walk through the garden teaching the reader the difference between underground vegetables, root vegetables and flower vegetables. The reader also gets to learn the difference between fruits and vegetables and so much more. There are beautiful and colorful stickers and illustrations that allow the reader to interact with the book while learning about gardening and the glory of growing things we can eat as well as the creatures that help and hinder the process. There are also some places where the reader can color the pictures as well as place stickers based on the instructions. It is a delightful and fun way to learn about birds. I highly recommend this for summer fun or long car kids!
