Age Range: 2 - 4 years

Grade Level: Preschool and up

Customer Reviews

I love,love,love this little book!!! It is much cuter than the picture. The little puppet horse head extends through a hole from the back of the book through the cover .It can be manipulated on each separate page. I bought it as a gift for one grandchild and after seeing it I ordered it for two other grandchildren.One of my favorites.

A wonderful book for very young children! I loved the book so much, I ordered another one...as well as some of the other "animals" in the series (I call it a series because they are all by the same author)I would highly recommend them for anyone with a child 3 and under (my opinion).The book is especially cute because you can make the head move with your finger and as you open the next page...the horse is still there...

The story is not brilliant, but our 9 month old grandson LOVES the horse wiggling at him on every page. He doesn't understand the words yet anyway, just loves to interact with the puppet. Highly recommend this one, and the fox one that we also bought.

Adorable little book! I bought this book for my five month old grandson, he gets so excited when I read it to him! I'm the 'horsy' MiMi so I'm always looking for cute horse related items for my grandchildren. This was a huge hit!

Really cute how the finger puppet becomes part of the story! Our grandson, who is a year old, was fascinated by the little book!

It's very cute. Bought it for a horse loving co-worker of mine who was having a baby girl. She loved it!

I bought a good portion of this series for my baby niece (6 months). She particularly loves her "horsey book", and actually is consistently picking it out over other options for story time. She seems to be attracted to the bright colors and the easily manipulable finger puppet. The finger puppet really helps to keep her attention. Her mom also really gets into the reading and does lots of "performing" for her.

This is a really cute little book. My 2 year old granddaughter was scared of the finger puppet. She ran clear out of the room. Now 3 months later her older sister is teaching her how to put her finger in the puppet hole... Too cute and all is well
