I am a 6th grade language arts teacher. Steve Stratton came and spoke to my classes. I was so excited about reading the book after hearing him talk about it. I was not disappointed. It was great!! It kept me in suspense and I can’t wait to read the sequel!!

I love the book! Mr. Stratton did a fantastic job of pulling me in from the beginning of the book. This is an excellent read for a middle school audience. They will love the suspense! I can’t wait to read the second book.

A perfect book for a chilly fall night. My 10 yo. Daughter and I both found the book suspenseful and a definite page turner without being gory. We are looking forward to more from Mr. Stratton.

Good book - enjoyed reading it even though target audience is middle school age.

This book is a combination of vampires, Christ, and a little bit of horror. In summary this book was the most amazing book I've ever read!!!

This book has an awesome story line, it is well written and keeps you reading cover to cover. This book would make a great base for a movie . I enjoyed it very much . Looking forward to this authors next work.

"One October" has a fun premise. I really appreciated the Plainridge legend and the general description of scenes and characters. The author does a good job of building suspense and keeping you intrigued enough to finish the book.The characters are generally good too. They are distinct and each is essential to the plot.There are a few things in the writing mechanics that could be improved to make the story seem more sophisticated. (The placement of actions in dependent clauses is one that really stuck out at me.) But given that the book is aimed squarely at a younger audience, I won't belabor this point too much.All in all, I think "One October" accomplishes what it sets out to do. With some effort, I think the author could write something more substantial, as well.I give extra props to Mr. Stratton for trying to instill a love for reading in young people. He's doing every author a service there.

I am a middle school librarian and I read this book because we are having the author, Steve Stratton, come to speak to our language arts classes.I am always looking for books to recommend to my middle schoolers. I can't tell you how many kids want a gory, blood and guts, scary story. The book was a very quick read. It has a good combination of spooky, creepy, and gory. I also really like how the author incorporates God and the importance of trusting in Him by using a good versus evil theme throughout. Oh, did I mention VAMPIRES?? Great for a middle school audience.
