Book by Clarke, Frank

Frank Clarke is adorable and easy to follow. I've learned how not to let watercolor painting scare me to death. He's very clear about what he's doing and I like "going" to the places he paints with him.

I was in a once a week watercolor class and realized that I was not learning the basics, brushes, paintshow to handle the water in the brush etc. I was just thrown in and told sketch this paint that. Notlearning nor progressing toldly frustrated.With this book I have REALLY begun to paint in a very easy and simple way, I learn so mucheach painting, and it is so much fun. I recommend this book to anyone that's beginning to paintin watercolor. I love it. Thanks to Frank Clarke's Simply Painting.

Frank Clarke is a wonderful artist, and also a wonderful teacher. I found this book to be geared towards the ultra beginner watercolor artist. Even though it is simple, "hence the name" Frank doesn't dumb the things down, it is actually inspiring to have everything so clearly explained.Like Frank says, anyone can learn to paint with this system. Even if you can't draw a stick figure, don't be discouraged, this system is awesome. It will get you satisfying results with little learning curve.The paintings he guides us through are not simple looking by any means, if they are simple to

create(which they will become), well that's our little secret. Painting doesn't have to be difficult to have great results.I can't recommend any of Frank Clarke's products enough. I have his dvds, books, brushes, and paints. They are all wonderful.I would definately recommend getting the companion dvds with this book, so you can see the man himself explain things, and see the master at work.Keep the courses coming Frank, and thanks for all the great inspiration, motivation, and teachings.Happy painting.

Great for beginners. I wish that I had seen his YouTubes when I first bought art supplies.

I am a painter and just bought this book. I paint in oils and acrylics and wanted to learn watercolor, so, I bought this book. I just finished reading it and can say it is a wonderful book, easy to understand. I am looking forward to painting water color. I want to make personal cards for my family and friends. I love receiving hand made cards and I wanted to paint some. To me when I receive a card like this, it feels like a gift because someone took the time to do it. Now, I am certain doing these little cards will be a wonderful practice and will be fun when I do paint watercolor landscapes. Thank you Frank Clarke.

I got this for my six year old granddaughter who is in love with art. When she comes to my house, she spends her time at the art table where I have lots of supplies. This is the perfect book for her, with guidance. She is reading at fifth grade level and can understand it, but if you use this for a small child, be prepared to walk her through the steps. It is truly valuable in teaching several important principles of watercolor.

Another fine resource by Frank. His humorous and easy-going method of watercolor painting makes it achievable for us all.

Fro the beginner this is the perfect book. Clear, understandable, instruction that helps the budding artist achieve from the beginning. Would recommend this and the videos to any beginning watercolourist.
