Synopsis

REA’s Praxis Core Academic Skills for Educators Test Prep with Online Practice Tests Gets You Certified and in the Classroom!"Unlike so many of the books on the market, this REA volume... is 100% up-to-date. This book is well-informed about all the changes that have been made to theÃ Â PraxisÃ Â exam..., and it discusses all the question formats that you will see on yourÃ Â PraxisÃ Â exam."Ã¢â ¬â •Mike McGarry, Test Prep Instructor,Ã Â MagooshRead the fullÃ Â MagooshÃ Â review.The Praxis Core tests are used to gauge the skills and content knowledge of candidates entering teacher preparation programs and are used for initial teacher certification in more than 30 states andÃ Â U.S. territories, and the Department of Defense Education Activity.REA’s Praxis: Core Academic Skills for Educators - Reading (5712), Writing (5722), and Mathematics (5732) test prep helps you master the information on this exam, bringing you one step closer to being certified to teach. It’s perfect for college students, out-of-state teachers, and career-changing professionals.Completely aligned with the Common Core State Standards and written by experts, our study package contains in-depth reviews of all the reading, writing, and mathematics content tested on the Praxis Core exam.A diagnostic test for each exam is offered online to help pinpoint your strengths and weaknesses. The book includes 6 full-length practice tests (two each for reading, writing, and math) that cover every type of question, subject area, and skill tested on the exams.The book’s practice tests are also offered online and include timed testing conditions, detailed scoring analysis, and diagnostic tools so you can identify areas where you need extra study.This complete test prep package comes with a customized study schedule and REA’s test-taking tips and strategies.This test prep is a must-have for anyone prepping for the Praxis Core tests!

Customer Reviews

Get Ready for the PraxisÃ Â® Core with REAÃ¢â ¬â„¢s Book + Online PrepOur all-inclusive test prep was developed by teacher education experts and gives you everything you need to succeed on test day. Let REA help put you on the path to a rewarding teaching career!Targeted ReviewÃ¢â ¬â •Packed with examples and exercises to reinforce key concepts, plus:

About Our AuthorsSandra Rush is a best-selling author acclaimed for making mathematics easier to grasp. She has taught math and physics at both the secondary and college levels. As an undergraduate majoring in math at Temple University, Ms. Rush tutored students at Philadelphia public schools, which sparked her interest in teaching. Ms. Rush has written test-preparation guides for all ages, with her approach continually informed by her one-on-one tutoring and coaching.Julie OÃ¢â ¬â„¢Connell is an associate professor of English at FelicianÃ Â University, where, beginning in fall 2016, this book is being used as part of a Praxis Core review course led by Dr. O'Connell. Dr. OÃ¢â ¬â„¢Connell was chair of Developmental Studies at Felician from 2010 to 2013. From 2000 to 2010, she served as director of Felician's Writing Lab. She has also worked as a learning specialist at Rutgers University, as a corporate trainer, and as a high school English teacher.

Decent for the money, but don't be fooled by the practice tests. I scored 66% on all of my reading comprehension practice tests with this book, but I scored 200/200 on the actual test. I've never had a problem with reading comprehension so I did not think I would have a problem on the exam even though the study program seemed to say otherwise. There is a lot of good information in the book though, so if you're looking for a quick review of concepts it's not too bad for the price.

I used this massive book to prepare for the PRAXIS Core. I read and studied it cover to cover -- over and over again. I thought the explanations in the math section were MUCH better than in the grammar/writing section. However, having just completed the PRAXIS Core, I would say that this book was lacking in some ways. It did not offer a lot of help in preparing for the writing prompts. Also, the math problems that I did as part of the books reviews and practice tests were not as

similar to the test questions as I would have preferred -- not at all. This is the only study guide I purchased, so I cannot say that it is better or worse than the others but I would not turn to this company for test prepping again. (This free information on the ETS site might be more useful, honestly. The lists of topics covered there was much more thorough than this study guide.)

Would reccomend this to any future teacher! The practice tests are extremely useful!

My daughter couldn’t figure what she did wrong on the writing exam because she was scoring a perfect score for essay but bombing the other part. She reviewed this and passed her exam. Highly recommend.

Took test several time times book did not help.

Detailed explanations and solid practice questions. Only wish the online portion included different exams then the one in the book. I haven’t taken the praxis yet so idk if it will greatly raise my scores

Excellent!

It guided me through to pass 2 of the 3 tests.. I am not good at remembering formulas..
