This is a very practical French Horn method. I've originally used it with my mellophone. With the horn, you need to get your lips acclimated to the basic notes, and this book offers many exercises to do that. Sometimes you just have to play notes to get them clear. I recently ordered Book 2. This is a great method/.

This book is a standard for French horn beginners. Other method books have come and gone, but this one has withstood the test of time.

It's so sharp. I cut myself the first time I used it. very recommend . my family , helpful. excellent.
