Customer Reviews

Not quite what I expected.

If you are expecting to get any insight into Muddy's guitar picking, you will not find much here. This has the lyrics and the chords. Also, you have the music that goes with the singing (if that is what you're looking for.) If you closely look at the "look inside" you will see what I mean.I had to look up the term "lead sheet" to clarify my misunderstanding.I have to admit I have not even listened to the CD. I already have all the music on CD.The book shows the same exact music in 4 different keys. This is how they flesh 18 pages of music into 74 pages.I'm still looking for a good source of music or tabs for Muddy's guitar playing.
