I couldn’t get any decent tab for these songs online and I am so happy with this book. Well worth the money!

lovely bass tabs for No Doubt lovers

This book basically taught me how to play guitar. Youll learn heaps of stuff if ur not too advanced already: tapping, hamonics etc. No songs on here are boring to play, not one is just power chords all the way through and theres quite a few really good solos.No Doubt is my favourite band ever and I’m comletely in love with just about every peice of music theyve ever made. I know this is the sort of band a lot of people are obsessed with. If u are (or arent, doesnt matter) and ur thinking of learning guitar or bass, this books pretty spot on i think, and it really makes u appreciate the band so much more.

This book is cool!! The first thing I looked at was the pictures and was stoked to see Adrian in an Iron Maiden shirt!! GO EDDIE GO!!Anyway as far as the tabs are concerned, well I'm a drummer not a guitarist, but thankfully my brother is. This book pretty much got my band started (not long after catching ND live!), our singer Simonna had it and leant it to my brother to learn a bunch of ND's songs and that was that!! NOW WE ROCK!!! hahahaAs far as I could tell the tablature is quite accurate, the songs we learnt were Just a Girl, Excuse Me Mr, Sunday Morning, and Don't Speak I believe???? Who cares? It's just a cool book!!! SO BUY IT DAMN IT!!!!

I picked this book up when I started learning how to play bass. Tony Kanal (the bass player in No Doubt) is really amazing. This book has helped me to learn a lot of no doubt songs, as well as quite a bit of music theory. It really makes you appreciate No Doubt all the more. A must have for any guitar of bass players.

I have found this book to be no less than what I expected of Hal Leonard books. It was very accurate and if you want to learn some No Doubt music, Pick it up! I highlyrecommend it.
