Synopsis

The Los Angeles Air Raid on February 24/25, 1942 opened an unprecedented chapter in the evolution of the U.S. Navy. In response to this incident, a covert research program to investigate the feasibility of exotic antigravity propulsion technologies was developed. In addition, Navy operatives were embedded in Nazi occupied Europe to learn about the GermansÃ¢â ¬â„¢ advanced flying saucer programs, and they discovered the Nazis were receiving assistance from two extraterrestrial groups with very different agendas. The debriefing of the operatives took place at Naval Air Station, San Diego, led by Rear Admiral Rico Botta. He instructed a Ã¢â ¬Å“Disseminator of Naval Research and InformationÃ¢â ¬Â•, William Tompkins, to take confidential briefing packets to select think tanks, corporations and university departments around the country. Later, Tompkins worked with a number of leading aerospace companies to design massive spacecraft for a secret U.S. Navy space program, and was fatefully assisted by extraterrestrial visitors described as Ã¢â ¬Å“NordicsÃ¢â ¬Â•. An extensive number of documents substantiate TompkinsÃ¢â ¬â„¢ claims of the existence of a covert Navy program created to study, design and build deep space battle groups. They became operational in the 1980Ã¢â ¬â„¢s. Now the Navy has a new goal to enact a plan to level the universal playing field, and the election of President Donald Trump may just be the wild card they needed to reveal Ã¢â ¬Â¦ everything!

Everything or most everything humanity needs to know about aliens and their interaction with modern humanity is found in this book. Buy it. Read it in depth. Then prepare to spend days in deep thought digesting what you will learn. I'm now in that last phase myself. The information is right up to date as of early 2017. The 2016 American election of trump and the Russian connection is even covered. The navy secret space fleets as well as the other secret space fleets and programs are covered in depth as is their relationship with the various off-earth civilizations.I often read a book and come away confused or left hanging. But not with this book. I am however left with a desire to learn more, and more in depth. If only the organizations that are allowing or pushing this disclosure initiative would just quit pussy footing around with book authors and soft disclosure through scifi movies and tv series would just call an official press conference, tell us everything up front and have 60 minutes in to run a full exposay then we could all know the truth the whole truth and nothing but the truth. We CAN handle the truth. It's well past time!I personally have been reading flying saucer books and ancient Atlantis books since I was a teen. Now I'm 70. Let's get this done while I'm still alive.

Great book!

Good

Dr. Salla's investigations backed by meticulous documentation and groundbreaking testimonies draws the big picture of the US government implication in benevolent ET contact and reverse engineering of alien technologies.If you're interested in how bright the future will be and are able to think beyond the public opinion, this book is fo you.We may well be on the brink of full disclosure.

excellent , engaging , but dependent on " whistle blowers " for info. How much is true and how much disinformation . Nevertheless I believe most of it. Too many people have seen too many UFOs , and

often in public settings. Too many witnesses of the crashes . So we know they exist . But why do they crash? Why don't their own "people" recover the bodies and wreckage? Why leave it here , unless it is intentional. If the Secret Program exists as stated in the book then the term Exopolitics is something that already is going on and for a long time . Michael Salla's attempts to learn more seems pointless as this is being kept from at least 3/4 of the world for 50 years , so what makes anyone think they will learn more on their own . If you have been rejected from the club why bother trying to keep joining. Maybe those of us who are left out of the loop are the ones who will be exterminated.

I liked the layout of the book . When you read it you will understand just how much research went into the book . Im glad that the truth is finally coming out about all the secrets that have been hidden away in plain sight. I recommend to any one seeking answers .

This is a continuation of the disclosure of the Navy's secret space program. Dr. Sala has provided a great service by doing the hard work of extensive research to document the truth in no uncertain terms. His newest book takes us deeper into the existence of "'off-world" people working side-by-side with scientists and engineers to develop an advanced space program to deal with very real threats to life on earth as we know it. And I must say that this is one of the most grammatically correct books of any kind that I've read. Congratulations on another successful effort!

I found this book to be a very interesting read. Free thinkers will enjoy this book. Think outside the box. It's happening now and it has for a long time. I will pass this book along to another free thinker.
