Synopsis

Things aren't always as they seem. Is the little Rhode Island carnival just a place of innocent playfulness, or does it house dark secrets? Is the newest exhibit at the Museum of Natural History a crude representation of an elephant, or is it a thing from out of the depths of time? Who would kill for a ceremonial dagger? What mere vision is powerful enough to kill a wizened rabbi? Four Odysseys into Deadly Adventure Curse of the Chthonians contains four detailed scenarios for the Call of Cthulhu roleplaying game, plus an examination of the Kabbalistic science of GematriaÃ¢â ¬â •which seeks to derive secret or mystical meaning from the very letters that form the words of Scripture and occult texts.

Customer Reviews

Riddled with typos. The book was apparently OCR'd, and then nobody bothered to proofread it (lowercase "l"s reading as 1s, Ks turned into "tc"s, etc.). Also, no effort has been made to turn a book that was written in the early 80s into something that would be playable by modern gamers, who typically expect a bit more than a dungeon crawl out of CoC. Finally, the type has been enlarged to a ridiculously huge size, which extends the length of the book artificially. Don't be fooled - buy something else instead if you are looking for good CoC scenarios (Pagan's upcoming Bumps in the Night looks promising, and Mortal Coils is easily available if you are in need of 1920s scenarios).Skip this one unless you are a collector and don't care about the content.
