Synopsis

Ideal for introductory courses, Current Debates in International Relations presents forty-nine readings drawn from major scholarly journals, magazines, and newspapers including Foreign Affairs, Foreign Policy, International Relations, and The Wall Street Journal. It provides a broad selection of articles--both classical/theoretical and practical/applied--and steers students through major international issues, offering contending yet complementary approaches.The selections include three types of readings: * Key theoretical essays and fundamental works describe the structure and dynamics of international relations, principal actors and institutions, major international events, and critical approaches* Contemporary articles based on research and analysis focus on specific issues, both theoretical and applied, which reflect current debates in the field* Illustrative articles and essays from accessible sources present a variety of views and approaches that serve as practical applications of theory in contemporary policies and international relationsSection introductions offer previews of the topics and readings along with questions for class discussion or individual assignments. An open-access Companion Website provides additional resources for students and instructors, including practice questions and exercises.An excellent stand-alone text, Current Debates in International Relations is also a perfect companion to the editors' textbook, International Relations, Second Edition (OUP, 2015).

Customer Reviews

Eric B. Shiraev is a researcher and professor at George Mason University. He is the author, coauthor, or coeditor of twelve books and numerous publications, including Russian Government and Politics (2010) and Counting Every Vote: The Most Contentious Elections in American History (2008).Vladislav M. Zubok is a professor at the London School of Economics. He is the author of numerous books and articles, including the prize-winning Inside the Kremlin's Cold War (1996) and A Failed Empire: The Soviet Union in the Cold War (2007).

Awesome textbook! Glad there is an index! Do wish the sections were numbered within the book, though.
