Dr. Walter Nicholson is the Ward H. Patton Emeritus Professor of Economics at Amherst College and a visiting professor at Ave Maria University, Naples, Florida. Throughout his teaching career, Dr. Nicholson has sought to develop in students an appreciation for the value of economic models in the study of important social questions. He also has enjoyed showing students some of the stranger things that economists have sought to model. Dr. Nicholson received his Ph.D. in economics from MIT. Most of his research is in the area of labor economics, especially policy questions related to unemployment. He lives in Naples, Florida and Montague, Massachusetts, where he and his wife enjoy the frequent visits of their eight grandchildren.Dr. Christopher Snyder is the Joel Z. and Susan Hyatt Professor of Economics at Dartmouth College, where he pursues

research and teaching interests in microeconomic theory, industrial organization, and law and economics. He is a research associate in the National Bureau of Economic Research, serves on the board of the Industrial Organization Society, and is an associate editor of the Review of Industrial Organization. Snyder received his Ph.D. from MIT. His recent research has appeared in leading economics journals, including the Review of Economics and Statistics and Quarterly Journal of Economics. He lives in Hanover, New Hampshire, with his wife, who also teaches economics at Dartmouth, and three daughters.

I wish there were more hands on examples throughout the book. A lot of the theory is well explained but there aren't many real problem walkthroughs. I rarely used this book throughout my entire semester of school.

Great product. Fast shipping and was the product I needed. Great seller.

book came in excellent condition

The middle section of the book is printed upside down.

excellent for the job

Just what I needed for school

Very clean book

good
