Good book,brand new, no creases or marks in pages , nicely packaged and came on time.

Helpful to review along with the textbook.

Worked great for my classes even if it was a previous edition.

I BOUGHT THNIS BOOK FOR MY SISTER WHO IS STILLIN SCHOOL , SHE HAS HAD NOCOMPLAINTS ABOUT HER BOOK FROM HER TAECHER AND HAS HAD A JEALOUS FINGER ORTWO POINTED IN HER DIRECTION BECAUSE EVERYBODY ELSE HAS HAD TO SAVE SEVERAL PAYCHECKS TO AFFORD THEIR MATERIALS. SO THANK YOU VERY MUCH FOR HAVING THIS BOOK AVAILABLE AT A PRICE THAT WAS AFFORDABLE ,IT MADE A GREAT GIFT. PARIS & MARK

it’s the textbook for a college nursing program. better value online than in the book stores at campus. free shipping makes it a good value and easy to purchase.

This is a required book for my Nursing course and it is extremely difficult to understand and very repetitive in content. If you’re just looking for a book to help you better understand and it’s not required don’t buy it.The quality of the book is good. All the pages are there and the binding is fine it’s just really lacking in content and clarity.

Very hard to read unless you have the mind of a researcher. Poor examples that don’t really explain the various definitions throughout. Can be redundant at times, which can be good, but I found it annoying.

after reading this textbook for a class, i reallllly appreciate the work behind and research journals a lot more than I did before inmy associates program. good luck to those who need it for their BSN classes!
