Customer Reviews

Another review praised this for its brevity. I wanted the reverse. I assumed that a guide that covers 3 cities will cover them in more detail than a guide to an entire country. Not this one. If all you want addresses and hours of the major sites, it fine. But forget minor sites or any descriptive info on anything.

I love, love to travel and miss it greatly. It has been a longtime desire of mine to visit the Orient and while at the moment for health reason I am not able to travel. This gem made me feel like I was there and gave my great ideas of place to go & things to do when I am able to make the trip!

OK read for quick enjoyment but lot of the information seem to generic for me. If you've been to Hong Kong, then you may skip this but for first time visitors, this is a good quick reference guide

I haven't ever been to Asia, though I have relatives there, and they confirmed most of the suggestions in the book. Fantastic, with a no-nonsense vibe in it; when I do go to visit, I'll definitely bring this along.

This was an interesting and not too fact filled travel guide. I read it just for interest as I am not planning on going anytime soon.

very brief and inexpensive. OK for a quick look at key cities if you just have time for the highlights and happen to want to stay in the area the author likes.
