Synopsis

Islam is the way of life for millions of people around the world. Its teachings guide people to live harmoniously and in balance with themselves, others and the world around them. Everyday people come into contact with Islam and those who practice this faith. The need to know about Islamic teachings has become more important that ever.As Muslims assimilate the English language into their rainbow of lexicons the need for clear and concise literature grows. This is especially true when one considers that there are millions of Muslims whose native language is now English. In addition, many seekers of knowledge have been yearning for a book that would present the clear and precise Islamic view of life in a format that not only invites further study and research, but that also provides the path to achieve this goal. What Islam is All About is a textbook designed to meet all of these needs. In one volume is included the basic history of the Prophet Muhammad, (peace be upon him), the teachings of Islam, the history of the ancient Prophets, the study of the QurYan, the Islamic philosophy of the world and life within it, Islamic law. Hadith, contemporary issues and many more.Perfect for Muslim schools, Sunday schools, adult study classes, independent learners, students of religion, seekers of truth and anyone interested to know more about Islam from an insider’s point of view. You will not find a more complete, compelling and pleasant presentation of Islam and what it teaches anywhere else!

Customer Reviews

Yahiya Emerick is the director and primary force behind the Islamic Foundation of North America. He accepted Islam in 1988 while attending Michigan State University. He has since been involved with many Islamic activities which include writing for magazines, serving as a member of various

Islamic organizations, writing books and teaching in Islamic schools as well as delivering Friday sermons and other speaking engagements. He is married and lives in New York. --This text refers to an out of print or unavailable edition of this title.

I live in an area where there are few Muslims. So when I wanted to learn about Islam from a friendly knowledgable guide there was no one available. I also had reservations about learning from someone.I am very lucky that I found this book. It covers everything about Islam. It doesn't just talk about the spiritual mentality of Muslims, or the history, but goes into detail on functions, manners, lots of how-to sections, the spiritual thoughts behind actions or duties, and much more. It basically teaches someone how to be a Muslim and answers lots of questions. It is a DEFINATE MUST-HAVE FOR ANY AMERICAN CONVERT.Yahiya Emerick is a wonderful person who converted when he was 19 and has dedicated himself to TEACHING Islam. He has taught in many American Islamic Schools and part-time summer programs. Through this textbook you feel his warmth, understanding, and his passion for bringing people to understand true Islam.This book is designed to be a young person's textbook. It comes with vocabulary lists and review questions. Don't let that turn you off. I am a 24 yr old female and it has kept me interested every step of the way. I don't do the questions but I appreciate how Br. Yahiya goes over the deep topics in a way so that anyone could understand what would normally sound complex and daunting. I think of this book as my little "Islam Sunday School".This is just such a great book I would recommend it to anyone whether they were a convert or not because it provides tons of information in a pleasant simple way that allows tough concepts to be digested. It's just absolutly great. I can't say it enough. It's a great educational tool. I have e-mailed Br. Yahiya and told this to him myself. I thank God that I found it.

This book satisfied my curiosity about the Islamic culture and beliefs.

This is a wonderful book for all ages. It's easy to understand, and breaks things down into simple concepts that create a good foundation for the rest of the lessons. Highly recommend. It is a great guide for anyone interested in learning or teaching more about Islam.

lots of various topics.. wide variety. but i think more geared towards kids. includes "silly" details that i thought din't contribute, and at times felt like left out "important" details. good for beginner. buy for someone looking for deeper understanding and explanation of events, it may not be the best resource.

how the muslims intend to take over the world, the women of the world will not tolerate the loss of their freedoms and libertys and will be the end of is lame

I have bought this book for many people including myself as it is a wonderful birds eye view of Islam. Now if someone could only tackle the subject of extremists and help the rest of the world who is not aware understand the difference between them and Muslims!

This book is a must have in your library, especially if you are new to Islam, or just what to know what the religion is truly about. It answers any question you may have. And all information is cited whether it be from the Quran or hadith.

A great book for teaching notes, the author has done a great job. This book covered in detailed has explained stories of Islam in very respectable way.
