Synopsis

This easy-to-follow guide shows how simple it is to draw pictures of your favorite animals. With it youÃ¢â ¬â„¢ll soon be able to create charming portraits of a dog, cat, leopard, moose, giraffe, panda, goose, duck, rooster, lamb, rabbit, cow, camel, elephant, and 16 other creatures.Clear, step-by-step diagrams explain how to join circles, ovals, and other shapes to create a zoo full of easily recognizable figures. Some erasing may be necessary, so use a pencil Ã¢â ¬â • not a pen. Just follow the instructions and youÃ¢â ¬â„¢ll soon be drawing excellent likenesses of a smiling chimpanzee, a prickly porcupine, a bushy-tailed squirrel, and other familiar animals.

Barbara Soloff Levy has created over two dozen "How to Draw" guides for Dover, plus many other activity books. Since retiring from her job as an elementary school art teacher, she devotes much of her time thinking up new ideas for this popular series.

Based on several of the other reviews, I feel that most people probably purchase books like this one for small children. As a young adult, I purchased this book after buying some more difficult drawing books that were out of my depth. If you, like me, have absolutely no artistic training or skill, consider picking up some of these books. They are fast, fun, and cheap.

I bought a bunch of these books, and love them. My daughter wanted to learn to draw, but is a perfectionist, and I'm not the best artist...so enter these books...now she just looks up what she wants, and is thrilled that she can actually do it...I have to say, I enjoy being able to draw some things I couldn't before either.

You will not go wrong with this book my granddaughter who is 7yrs old cant put it down, A+ for Papa and A+ for this amazing book.

Not an artist by any means...but, with this book...my granddaughter and I can draw on the driveway with her chalks....We are building memories with this book....along with a lot of laughter....

Made a 5 y/o with a passion to draw very happy

This was a gift for my 6yo who is really into drawing lately. She loves it. It is simple enough for a 6yo to easily follow the instructions. She feels like a real artist now!

These books are amazing. They break down drawing so anyone can do it. Its so fun to do these with your kids, and compare what you all come up with in your final results :o) The price is great, and it not only provides great instruction, but can be a great way to bond with your kids over a simple activity. I purchased several in this series.

Bought for a 12 yo beginning artist who loves animals. Pretty basic but that's what I was looking for.
