Synopsis

Many new color photographs showcasing thousands of machine-made and contemporary marbles have been added to make this book an even bigger Big Book of Marbles. This third edition brings marble collectors even more information, with added discussion on marbles at auctions, art glass and new comics, and listings of marble clubs. Grist has also drawn from one of his other books, Machine-Made & Contemporary Marbles, for this new edition. Now with almost 400 large, detailed full-color photographs, this book is the essential resource for the marble collector. Fifty new shots have been added to the 400 detailed color photographs, and over 1,000 marbles produced by West Virginia companies have been identified for this new edition. The author enlisted the help of knowledgeable historian Ron Shepherd, co-founder and past president of the West Virginia Marble Collector's Club for this volume.

Grist has made it easy for young and old alike to discover the wonderful world of marble collecting--without getting taken to the cleaners. Not only does this volume throughly describe how to identify various marbles, it pictures many of the common marble varieties with very clear, full color, closeup photographs...-R. Mann

Everett Grist is the author of several books on marbles: Big Book of Marbles, Machine-Made &

Contemporary Marbles, and Antique & Collectible Marbles. He is also the author of Collectible Aluminum.

Great book on marbles. Provides a great deal of information.

Everett is very "old school" but he was very much ahead of his "time" regarding understanding the art marble making. I hope someday to find a book about that.

very helpful book right price too

Informative and has some other information not found elsewhere

very good book any starting collector should get this to start.

An Excellent Marble Publication....
