I was alittle worried on when I would receive the product but amaxon cane through and I love the book. Thanks

A lovely collection of scenes to colour and enjoy. I have even scanned some pages and added them to my tablet for digital colouring. Equally delightful!

Exactly what it says it is, The Legend of Korra coloring book is a black and white soft-bound coloring book filled with images for the consumer to add color to. This isn't a coloring book made for children with simple renderings, but for older fans of the show with much more detail and attention paid to detail. These are still simpler line drawings, certainly nothing you'd expect to see in a graphic novel such as the upcoming Turf Wars comic, but still, the artwork is more fine-tuned and detailed than I expected.Since this was my first purchase of a Dark Horse Avatar Universe coloring book, (Dark Horse also offers an Avatar the Last Airbender coloring book) I thought it was just going to be random scenes from the show, but I was pleasantly surprised to see that the coloring book was a condensed tour of all four books of the Legend of Korra series, with the drawings to color on the right, and the previous page printed with a quote from the season of the show that the drawing represented. Granted, if you're looking for something complicated to look at, this might not be the item for you, but if you are a person who likes to collect merchandise from a fandom completely, it's a relatively nice item, just don't allow your imagination to expect more than what it really is.
