This is a good book!!! I love grayscale coloring and was looking for something nice for Christmas time pictures. This book was not overly expensive and the paper is nice. There are some that I probably wont color but that is pretty much the case in any book. I would recommend this to a friend if asked. :)

Fast shipping. Book is quality made. Would by from this company again

I am new to grayscale and just learning..the reason u gave 4 stars is of some slight blur to the pictures that is intended to be there but makes it a little harder for those of us starting out. I love the pictures as this book us not just focused on just trees which I was a bit afraid of. Instead there are quite a good variety and even a gingerbread house which I can't wait to do. My biggest frustration is getting a book sight unseen..mso I am including a video flip through of the book so people can see the pages. One sided decent paper.

It's a challenge! Like the end result so far.

I got this book at Christmas. It has nice images. I enjoy coloring in it. I love greyscale.

I got this for my son who, unfortunately, is in prison. I thought it would help to brighten up the dorm.

Love this book. Well but together with amazing grayscaled pictures.

great book and pictures
