Friedrichsen’s guide helps couples create realistic budgets, intimate ceremonies and memorable receptions. [This book will] surely be in demand. Recommended. -- Library Journal

Laurie Dewberry is a skilled party planner and interior decorator.

I already read this book, but I wanted to own it. The copy sent by the company was in brand-new quality, no markings, arrived in less than 7 days, and was the exact edition. I would order from this bookseller again.

This book is an excellent supplement to the intimate wedding website. I have found lots of great information and ideas for my bed and breakfast wedding. I highly recommend this book for anyone wanting a small wedding. It has lots of ideas for any budget and a guest list of 75 guests or less.

Everything I needed to know about small weddings!!

This book has a lot of ideas to do wedding on a budget more than creating intimate weddings. The book needs more pictures because it only features a few pictures of the couples in black and white, low resolution photos. We want to actually see pictures of how to make a wedding feel intimate.

We were planning a wedding with 50 guests. Most other books are aimed for large weddings. I got the most use out of this book...it gave me good ideas and great online resources. Highly recommended if you are planning on a smaller wedding.

Lots of info. packed inside this book and there are website references throughout. Provides a variety of ideas to make a small wedding special and unique. I'd definitely recommend to anyone planning a small wedding.

I loved this book! I purchased several wedding planning books; this one is hands down the best of the bunch! Tons of resources, tons of ideas. The real-life weddings shared in the book (complete with their budgets) was particularly helpful. Tons of resources in the back of the book too, complete with website addresses. I highly recommend this if you're planning a wedding!

I especially liked reading about the experiences of others' "real-life" weddings - getting ideas from what they did, seeing the breakdown of their budget - it really helped set realistic goals for my own budget. Well worth the time and money to read this book.
