This book is easy to read; my grand kids love it and read it over and over again. Steve uses his imagination while heÃƒÂ¢Ã â ¬Ã â„¢s in the woods as the battle continues to rage between this hero and the villain Herobine; Steve the good guy, Herobine the bad one.The story line is similar to the traditional tale of the Wizard of Oz which is an all time favorite and very popular story. I was rather impressed with the panel in the book which was used as a learning tool for children about not spitting on others ÃƒÂ¢Ã â ¬Ã â œ very commendable and a valuable lesson for children to learn.

The story ends with Steve saving the day as the true hero he is.

The adventures of Steve in this book opens a parallel universe with the Wizard of Oz. They have included scenes which were common from the original story that they based it in. For sure this will be enjoyed by kids, since the characters and images are set on Minecraft. There were also lessons that you can learn from this book. It’s just funny also how lines were delivered by the characters. Overall, I do not regret purchasing this book since it’s a good read.

The Adventurous situation that Steve and the colleagues have to overcome the situations in the magical land of IZ. Steve had to hold a lot of dialogues together with the buddies in the shortest time possible to Stop the crazy Hebroine at home. The book is entertaining as I read it on a cool weekend.

I have read the comics very long ago. So I decided to remember my childhood and something of that read. I chose "Minekraft Steve Adventures. The Wizard of IZ". I must say that I liked it. It was easy to read. This is an interesting, funny and quick-witted comics. True, I would like a clear graphics. This is somewhat blurred.

I like comics, and had wanted to read something entertaining, this story is read quickly because it is quite simple and entertaining , the graphics need a better quality because some scenes looks really blur and its hard to see, but is just that. I liked it anyway.

When combining 2 classics, like the tale of the Wizard of Oz, and undertake it on the tone of Minecraft, you can only expect to be amazed. In this edition of Minecraft, which i got on a promo from my ever faithful local bookstore. I couldnt help but wonder, what the hell, did these guys smoked to conjure up such a bizare and hilarious comic book. it faithfully follows the original plot from the original Wizard of Oz, with a few minor changes in the story. Highly recommended to share with children and adults alike!

A funny fun read!I actually enjoyed it. LolThis book was basically for my brother but when he was done reading it, I scanned through the pages because I had nothing to do. But I came across funny elements combined and started to like reading it.

I really like this book!! I really want to recomand this comic book to all of the peoples in the world. It's so fun! I readed this comic book 30 time!! I wish there's another comic book like this book. It's very gun!!!!!
