Synopsis

In this enthralling nonfiction reader that features informational text, vivid photos, stimulating facts, and colorful diagrams, readers will learn all about tornadoes and hurricanes--from how they are formed to where are they are most common.About Shell Education Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.

was a present

Enjoyed the book!

Grandson absolutely loves this book!

This was a gift. They liked it.

Great book for kids. Very informative!

My son found this book very interesting.

I bought this book for my grand-daughter. She is interested in all types of weather. She is enjoying the book.

I gave this to a 7 year old. He said, "thanks for the pamphlet". It was the size of a hand and a very few pages. Not worth $7..
