This is not a good buy. It played two times and stopped playing. The book appears thick, but only has a few pages. There are only 5 sounds made--a tractor engine, horn, horse, duck, owl. How many tiny children have ever heard an owl? The story line is interspersed with pictures of objects--along with their names beside them. This is very confusing when trying to read the story to a child. I am not pleased with this product at all. My grandson is two and crazy about tractors and animals.. This did not keep his attention for one minute. Yet, he has a book entitled "The Crippled Lamb" and he will bring it to me to read to him. The flaps covering the pictures are fllimsy and will tear off unless the child is super careful handling it. Fair warning on this product!

Only 5 pages, did not work properly from the beginning. After closing tab that you lift to engage the sound, the sound would continue even with the book closed. Get it at Kohl's cheaper with one of the %off coupons you receive in the mail.

This always peeked my toddlers interest, as he LOVES everything tractor. I was a tad disappointed when there was only ONE tractor sound. :(the peek a boo flaps are great, and the sound technology is light activated, which is unique, but makes it difficult to read in minimal light.Overall, a good book, the title is misleading, and I wouldn't purchase again for the price.

I love this book. Bought it for one grandson's first Christmas. It became his favorite book. So I got another one for my other grandson this Christmas. He just turned one. He loves it. I like the sounds and the flaps. Perfect for little ones. I grew up on a farm, and I like that this book provides my grandchildren with a connection to where I came from.

I've purchased several of these books because it's very hard to find a children's book with Massey Ferguson tractors in it. Great quality, never had any issues, cute sounds, and flaps are fun for the kiddos. Def recommend!

My son absolutely LOVES this book. We bought it for him right after he turned one. Hes now 18 months old and I read it so much that i have to hide it occasionally!!

My little guy loves the sounds of this book. He loves tractors and this book is perfect.

Package came very quickly! Sadly, when I went to open the flaps the sound did not work. I got extra batteries in case that was the problem but still no sound. Very disappointed with this product
