Synopsis

Combat Black Dog Syndrome worldwide; a portion of all proceeds from Black Dog Project will be donated to black dog rescue.One of Tumblr’s most viral blogs of 2014, the Black Dogs Project is a stunning photo series by animal photographer Fred Levy. Known as "Black Dog Syndrome" in animal shelters and rescues, it refers to the unfortunate phenomenon that black dogs are frequently the LAST dogs to be adopted and the FIRST dogs to be euthanized in rescue shelters. Animal photographer Fred Levy couldn’t believe that it was true, so he began talking with shelters. Not only does theÃ Â phenomenonÃ Â exist, but he discovered it’s an epidemic. Levy decided to turn his camera lens to black dogs, showing the world how beautiful they truly are. He called the photo series, The Black Dogs Project, and the stunning photographs have been shared worldwide, spreading awareness and attention to the problem. A portion of all proceeds for Black Dogs Project will be donated to labradors and friends.

"The big holiday season is around the corner and I’m sure you know an animal lover that would love this book." - Fstoppers"Through ’The Black Dogs Project’, Fred Levy illuminates the often-overlooked beauty and astounding presence of black dogs. Stunning photography captures the essence of these soulful dogs." - Kyra Sundance, author of "101 Dog Tricks"

Don’t you forget about me...Animal photographer Fred Levy was with his own dog in the local dog park when he first heard about "Black Dog Syndrome," the phenomenon that black dogs are frequently the FIRST dogs to be euthanized and the LAST dogs to be adopted in rescue shelters. After talking with shelters all across the country, he quickly learned that this was not just a random phenomenon. It was an epidemic. With camera in hand, Levy decided to showcase the beauty and tenderness of black dogs everywhere. His photograph series became known as "Black Dog Project," and awareness of this condition in shelters has begun spreading like wildfire.

I love this book with its beautiful photos and touching stories, and knowing that my purchase will help these dogs is an plus.I have a black dog that I picked up on the highway.... and I’m the lucky one.

As a foster/rescue mama and a pet parent to 3 black dogs and a black kitty, I know how tough it is not only for shelter animals, but black ones as it is so hard for them to get adopted. Beautiful book and a great gift for dog lovers or foster or rescuersThe Black Dogs Project: Extraordinary Black

Dogs and Why We Can’t Forget Them

I love this book! I have had 3 black dogs and I think all black dogs are beautiful. They are just like any other dog that deserves a caring, loving home. I am so glad that part of my purchase will go to the Labrador and Friends Dog Rescue Group. I highly recommend this book to anyone, especially dog lovers like myself!!

Bought this as a Christmas present for myself when offered a percentage off books at that time. I love dog photography, and black dogs, so I’m a little biased... but this is a great coffee table book. I also like the message, too many dogs are euthanized because black is a less desirable color. I’m here to tell you I’ve owned every color dog, black coats always stay shiny. Every rescue dog fan will appreciate this book.

Got this for my mom as a gift, since we love our own big black dogs so much. The pictures are beautifully done, both as a result of Fred Levy’s talent (the photographer), and the care that went into the printing of this book. Anyone who’s ever tried to photograph a black animal ever knows what a difficult task it can be, but how wonderful the results are when it goes your way. The stories for each dog are very cute and sweet as well, each describing how they were overlooked because of their color, but how they are just as wonderful companions as any white, brown, or blue dogs!And as a bonus, my mom and I were thrilled to see that there was a black chow chow, just like our own pups. :)

Black Dogs and Black Cats are the best. I have a BorderCollie Mix who is black with white tips and a black cat is smart and sweet and cares about the other pets in the family. The dog is probably my best friend and takes care of grandchildren but large and small. I am lucky and you will be too if you heed the message in this fine book. Don’t leave black dogs or cats behind as they are super and you need to learn that.

I love this book!!!! The photographs are sensational, and the stories about each dog are so moving. And a portion of proceeds benefits a wonderful dog rescue.

A beautifully photographed pictorial of stunning black dogs. This was a work of love and respectfully focuses on the plight of the oftentimes overlooked black dogs. Having had some amazing black

dogs myself, I know how hard it is to get a photo showing their expression because of the lack of coloring on their faces. Mr. Levy captures the essence of these gentle subjects with loving clarity. A work of art that I will look at many times to be reminded of the soul inside all dogs regardless of outward coloring. Must see this book if you love and cherish all dogs!
