When I received the book for my summer class, the book was completely separated from the cover. While the rest of the book was in workable condition, as a rental, its concerning that the book wasn't in better condition to return at the completion of my course because of its poor original condition. All in all it did the trick, but I wouldn't recommend buying a less than acceptable product from here.

The binding broke the first day I opened the book up and the problem has only gotten worse after each use. The quality of this product is extremely poor and this has happened to EVERY person in my class. It is a lose-lose situation. You need the book for your class, therefore buy it used from the cheapest source or buy it electronically. If you rent it or buy it new, you are only throwing your money down the drain, because unless they change the manufacturer, this book will not be able to be sold in good condition or returned. On a positive note, the material presented in the book is very detailed and a great source of information. The Case Problems and Taking Sides sections help a student relate the information presented in the chapters to real life examples.

The book I received was in three pieces: the hard cover, about 1/7 of the book, then the rest of the book. It cannot even sit on my shelf correctly or be placed in my backpack without becoming a huge mess. I can hardly use this book because it just falls apart every time I touch it. I attempted to glue it back together but there was no hope.

The book was fine and it good shape. I thought that it should have come a day earlier that it did, but other than that there are no complaints.

Very helpful with learning business law.

Recieved the book in good condition.

When I received this book, I picked it up and it fell out of its spine. It was torn and severely damaged.

Book was in very poor condition. Spine totally separated from pages making it hard to use for fear of pages coming loose.
