Customer Reviews

I am still in the process of reading those books, but I have already recommended it to a few of my friends, as Samuel has written this clearly and has made it easy to understand. He has started off by going back to basics, first of all looking at the global financial structure, with a bit of history, and gradually builds up to the technical side of forex trading. I am looking to purchase his other books on Forex also. Those guides covers almost every aspect of Forex trading that is needed to start exploring the world of Forex. It will by no means make you an expert over night but it gives you exactly what you need as a complete novice in order to start your journey. And if you decide to continue your journey then her other books areI am still in the process of reading those books, but I have already recommended it to a few of my friends, as Samuel has written this clearly and has made it easy to understand. global financial structure, with a bit of history, and gradually builds up to the technical side of forex trading. I am looking to purchase his other books on Forex also. Those guides covers almost every aspect of Forex trading that is needed to start exploring the world of Forex. It will by no means make you an expert over night but it gives you exactly what you need as a complete novice in order to start your journey. And if you decide to continue your journey then her other books are great too.

This set consisting of two books is revealing some investment and forex trading techniques. It is especially helpful for the aspiring investor like me. I received quite valuable information and it was an easy read. Despite the fact I am only getting acquainted with forex and learning the basic tactics, it was cool to read something further than fundamental things. I got the feeling there is much more to learn in this sphere and it is a great potential for my personal growth and development of my investing skills.I especially liked the sixth chapter of the second book which is called "Advanced tips". It gives about seven great, short but informative tips that can prevent you from some common mistakes like underestimation of money management, etc.

This is an excellent book set on FOREX TRADING.All of the things, tips and guides that I need to know about multiply your cashflow are already included and well written inside. Samuel Rees has done an incredible awesome job in compiling and creating this book of The Best Techniques to Multiply your Cashflow + The Advanced Guide that Will Make You the KING of Forex Trading.Also the unique part of this book is the compilations of the ÃƒÂ¢Ã â ¬Ã Å“Advanced forex trading strategiesÃƒÂ¢Ã â ¬Ã Â•. Very informative, useful and well explained.This book is really a great resource for those who want to learn more about FOREX TRADING.The book is worthy of attention!

Oh, if you want to learn all the ins & outs of forex trading then I would like to suggest this bundle book set first. Actually, I found these tow books so amazing and helpful because throughout this read I have come to know various best techniques of forex trading.Though I had few knowledge on it but I picked this book for the purpose of better understanding. It really fulfilled my expectation and I am so impressed by reading these two books. This read helped me to learn several advanced trading strategies. It showed me how to keep myself safe from all types of risk and its other side as well, I mean about advantages.Anyways, I am really thankful to my uncle to recommending this book and of course I will check more books written by this author near soon.

Yes! Forex trading is exciting but in the meantime, itÃƒÂ¢Ã â ¬Ã â„¢s bit risky as well. Forex

Trading: 2 books in 1 has very detailed information about forex trading. This book explains all the trading concepts in simple terms along with example.I got this book for free and it was informative read to me. I found chapter 2 ÃƒÂ¢Ã â ¬Ã Å“How to use the purchasing power parity properlyÃƒÂ¢Ã â ¬Ã Â• was very interesting and helpful.If youÃƒÂ¢Ã â ¬Ã â„¢re a beginner and looking for detailed information about Forex trading, you many like this book too. I would refer to this book in the future to refresh my Forex concepts.

If you are not familiar with forex trading secrets as you have just started or planning to start the forex business, you have the chance to get this amazing deal and learn the powerful tactics to succeed in the forex marketing. Its true that forex trading needs patience and deep understanding of everything but once you master all the skills then nothing is hard for you and you move ahead with speed.

Forex trading is the hottest topic of the bachelor's now, especially when talking about money. Samuel Rees has an eye of being an expert in this field of trading and I should say that I learned a lot from him like choosing the right thing to do before putting your money in the market. It is important to know how to liquidate the value of money so that you know when to enter and exit when something happened bad. It is also to know your rights when entering this trading system.

For me, everyone should understand and have enough knowledge in forex industry. Anything about forex is something that really interests me thatÃƒÂ¢Ã â ¬Ã â„¢s the reason why I bought this book. Though lots of experts tells that engaging in forex is too risky, here in this book, it explains why forex market is very desirable place to invest and I like how the author had been shared some Forex winning strategies. Truly a great book!
