Grateful Dead music is hard to transcribe. This book does a pretty good job of it, although in some case measures are divided in a manner different from what my ears tell me. It's not wrong, just a less "groovy" way of describing those organic 3/4 and 2/4 measure that the Dead use in some many songs.

this is a good library of songs by the band. Most are easy enough but this book takes out any question when getting songs together

Nothing special here. There are NO tabs in this book. I only bought it because a reviewer talked about the tabs. Obviously he doesn't know what tab is. These are the same songs I have in

countless.Grateful Dead books. If it’s your first Dead songbook fine, if not, leave it be.

Didn’t know it would be regular sheet music, should have read the product description better. Excellent for what it is !

Content is great but the formatting on the IPad Kindle app is not. Titles only appear for a few of the songs so it is difficult to figure out which is which.

"The" book by The Immortal Ones. What else can anyone say?

I ordered this for my husband and he loves it. The cover is very well made, sturdy and has a glossy finish. My husband is very pleased with this purchase.

comprehensive collection but not nearly complete
