Customer Reviews

The introduction, which also serves as the sample piece, is captivating. The rest of the book (which estimates to be 18 pages in length, but feels even shorter) is just a listing of 60 questions. Such listings are freely available at several credible sources on the internet. The 'answers' are 1-2 line long suggestions about how to approach the question, very generic and not useful at all. There are

no actual ’answers’ as provided by candidates or suggested by the author.

It’s OK

There’s no beating getting interview questions and interview strategy straight from HBS grads. If you want to go to business school, check out this book. The price is a tiny amount of what you’re going to spend on b-school applications. It’s a good buy to understand how to succeed at business school interviews.
