Synopsis

Puzzle lovers, rejoice! Bestselling math writer Alex Bellos has a challenge for you: 125 of the worldÃ¢â ¬â„¢s best brainteasers from the last two millennia. Armed with logic alone, youÃ¢â ¬â„¢ll detect counterfeit coins, navigate river crossings, and untangle family trees. ThenÃ¢â ¬â •with just a dash of high school mathÃ¢â ¬â •youÃ¢â ¬â„¢ll tie a rope around the Earth, match wits with a cryptic wizard, and use four 4s to create every number from 1 to 50. (It can be done!) The ultimate casebook for daring puzzlers, Can You Solve My Problems? also tells the story of the puzzleÃ¢â ¬â •from ancient China to Victorian England to modern-day Japan. Grab your pencil and get puzzling!

Customer Reviews

Alex Bellos' bestselling popular math books have been translated into more than 20 languages. He writes about math for the Guardian and frequently speaks at conferences, in schools, and beyond. The Association of British Science Writers named his blog the Best Science Blog of 2016. Bellos is also the coauthor of two math coloring books with Edmund Harriss and the inventor of LOOP, an elliptical pool table.

I bought this for my kids, and we work through the problems together-- but for a bright 10 yr old and his 8 yr old brother, these are pretty tough. For their dad-- they’re still pretty tough! So if you buy this for kids make sure you either have mensa members or you’re able to work with them, or else it may

be frustrating.Well written, clear answers, and interesting puzzles. Overall, a very solid book.

Delightful assortment of puzzles. The stories behind hem is almost as intriguing as the puzzles themselves.

11 year old son’s favorite book.

Excellent compilation

The elegantly simple puzzle on the cover, appropriate for children, is not representative of the book content. Vast majority of the puzzles in the book are for adults. My daughter opened the book and said, "too many words and not enough puzzles."
