Customer Reviews

This book. Is excellent. The characters are well developed and the writing is descriptive. I could not put the book down and read until later in the night than I should have. The book takes you from one extreme to another as the characters mature in the story. Get this book.

Orphan left behind a madman with a bit of noble blood with regrets of past he does not even remember and can do even less to change.The main reasons I loved this is the attention to detail both for the main and backstory, the plot twists that brings and several more things from the process of forging battle mage's armor to the bonding with a dragon (I am really into deep bonds with creatures).The book is quite long but well worth it.

This was a lot better than I expected. The cover doesn't do it justice! While the book is great it could have been amazing if the author spent a little more time on developing and using the magic system. See any of Brandon Sandersons books as an example.

The beginning was little slow, but once they got moving it just wouldn't let up.Good character building. I feel i fully understand the main character and his friends.I highly recommend this book. The language is clean and the only sex was inferred.

Wonderful book. I love big books which follow one main person. This is well written with a beautiful story with action and good story development.Don't be put of by the slow start it sets the scene for the whole book and I enjoyed it all.Despair and courage with dragons.

Really enjoyed this book. What a story. If you enjoy a story of loss, hope, and redemption, this is your book. Give this book a chance and you wont be disappointed. Not for the faint of heart, their is much death. lol. It is worth it.

I gave this book a five because it had everything I like in a book, suspense, conflict, magic , Dragon, and in the end the good guys wins. The author told the story in one book and I didn't have to await for another book. Thanks I truly in enjoy the reading.

Most authors take at least a trilogy to encompass the origin, training, and victory of their main characters, but Peter Flannery manages in one. He gives a good cast of characters and quickly fills

out the novel's setting. The only downside is that some of the character depth and development is lost due to the book's pacing.
