Julia Eggert is an associate professor and doctoral coordinator at Clemson University in Clemson, South Carolina. She is also an advanced practice nurse and consultant with Cancer Risk Screening Program at St. Francis Bon Secours Hospital, Eastside in Greenville, South Carolina.

The book fell apart in the first week that I had it.

i would like to have some questions after each chapter esp questions for ocn prep questions. very understandable, easy to study...

The leaves start falling out of the book. I've never had that problem with any book. I am very disappointed.

I bought this book to study for the OCN certification tests for oncology nurses. I felt like it went into depth on information that did not help me be a better nurse for my patients or to pass the test and not enough info on the things I needed. I don't want to give it a bad review because it is okay but Mosby's Oncology is much better.

Much easier to understand for a nurse new to Oncology. Easy wording and good perpetration for needs of patients. Not overwhelming like other more advanced oncology nurse books. It is a great starting place.
