Synopsis

An awe-inspiring compilation of the most uplifting and powerful real-life stories from readers of the worldwide best seller The Secret. Discover how everyday people completely transformed their lives by applying the teachings of The Secret. Since the very first publication of The Secret a decade ago, Rhonda Byrne’s best-selling book has brought forth an explosion of real people sharing real stories of how their real lives have miraculously changed for the better. How The Secret Changed My Life presents a selection of the most heartwarming and moving stories in one inspirational volume. Each story provides an authentic, real-life illustration of the pathway that leads to success in every area of life: money, health, relationships, love, family, and career. The people in How The Secret Changed My Life show time and again that no one is excluded from living the life of their dreams.

Customer Reviews

I bought this book yesterday and finished it this evening. It is an easy read and very motivational/inspiring. Is there anything ’new’, you might ask? Probably not but the practice of the LOA is such that it helps to read about it from different perspectives, authors. Most importantly the testimonials help us realize that it is not just a how to book, but the principles in the secret, simple though they may seem do actually work and have worked for many people in all kinds of circumstances and situations. Do not be fooled or disappointed by their simplicity because my daughter and I have both used them with great success. I do not always remember to apply them and wonder why things to do not turn out and my biggest flaw has been not being persistent enough

and not believing enough. I now have t remind myself that if things are not going the way we want them to, still persist and give thanks, even if we do not get what we originally requested, something better is on its way. Our personal successes include moving to the country of our dreams, and becoming citizens, a new marriage, weight loss, a new career in an in-demand field, lovely home, good health, for my daughter a full ride scholarship for her engineering degree, and now a great job in a corporate engineering in a company that is not just paying her a salary but house and board and she travels in Europe for 8 months of that 2 year contract!! So yes, I am a believer :)

I received this book last week, because my story HAPPY POWER is in this amazing book. Of course the minute I received the book I read it and have never been more inspired!THE SECRET, was life-changing for so many people around the world. I believe HOW THE SECRET CHANGED MY LIFE takes the Law of Attraction to the next level. The original book THE SECRET is still the best book I have read on explaining what the Law of Attraction (LOA) is and HOW to use it. However, most of this original insight is shared by people who have mastered it and at a level making a ton of money and great success. We all deserve this as an outcome, but in the moment most of us are just wanting a relationship to work out, a job raise or a job, the house we want to live in, etc. This is why I love this new book, HOW THE SECRET CHANGED MY LIFE. I feel it makes the Law of Attraction more real, accessible to those new at understanding the LOA. When you read these stories from this new book, some will make you cry, you realize that we are not alone in just wanting our current needs first.I use to beat myself up in not being able to get the LOA 'right', but as you will see in my story HAPPY POWER, that's because I was going about it all wrong. And my story also shows how I have been able to come from rock bottom up, because of THE SECRET. I am now a bestselling author on *, and believe me it's because of my knowledge I learned from THE SECRET.I highly suggest this life changing read, especially if you have been 'off and on' with the LOA. There are many stories in HOW THE SECRET CHANGED MY LIFE that all of us can relate to which is what makes this LOA book unlike any other! A great read and a great gift!*My novel thanks to the LOA :) -Ã Â Letters From The Looney Bin (Book 1)

It's a comfort to know that they're are real people in the world that have the same problems and similar issues as you. They are proof that if you change your way of thinking, that you can have or be anything you want.

This kindlebook of How the Secret Changed My Life: Real People Real Stories by Rhonda Byrne is

a gleaming and hopeful guide of various success stories covering various areas of life even practical career and money stories. For instance, there is a story on how a college educated woman manifested a lucrative career in public relations. Then there is a miraculous story of how a woman and her partner completely relocated to another area even without job offers lined up but eventually were able to eventually secure both employment and housing. This story alone was significant and inspirational to someone like me because I dream of traveling but I would not relocate to another country unless I have another job offer lined up. However, as an American born woman blessed with the freedom to live in whatever U.S. State that I choose to, I am daring and bold enough to relocate to another state within the United States even without another job offer lined up if I saw it worth it in the long-term (I would obviously consult with my husband first to take into consideration his feelings the timeline I would choose to do so).

I have the book and the e-edition. I gave the book away sometime ago and tried to recall some of the secrets from my notes without much success. I like the e-edition because I can read between appointments. This is a very up-lifting book and the message will change ones life. For example, I read the money section and behold, I receive income that I did not expect or know that I was entitled to. I just believed that the checks would start coming and they did. Perhaps the best benefit from the Secret is peace and tranquility from the reading. The Massages in this book provides a blue-print on how to live rather than just exist.

I think it was okay I really believe the book the Power is one of her best ones my book is literally falling apart I have everyone of them and read and reread them You have to use them and stay positive.

Such an inspiring book! I have several SECRET books plus the DVD movie. You can never get enough positivity! The Secret completely changed my life!

I pre ordered this book a while ago, was so happy when it came in, I love reading the stories on the website to keep me inspired and always wanted a book with the stories in it so I could have it with me at all times for inspiration, so I was very excited when I seen one finally coming out. The stories are great and will keep this book with me at all times.
