Have been having great fun reading up on the areas we will be sailing this winter. We are "newbies" and really value all of the information in this guide.

I posted this book on Facebook. This is a MUST for all boaters, no matter how long you have been boating in fresh water or salt! Good reminders for those of us who have been boating the West coast of Florida all of our lives, and those who have moved here from up north fresh water boaters! Love this book!

The Gold Standard for information...ports...anchorages...marinas..."watch out for

this"...shopping....you name it

This is absolutely must have information for anyone running a boat in the ICW. There ought to be a regulation that mandates all Canadians cruising to Fla carry it, just for the bridge opening schedules. No more "Un-named bridge, this is the XX...what time do you open?"

This is a poorly edited version with misplaced chapters, false references, and outdated information. Find an older (it will be more accurate) version. The mistakes in the current edition (2015) indicate a very casual attitude in the editing and lack of proofreading/ verification. My 2012 edition is more up to date with what you will really find when compared to the 2015 edition. There are many data points that are simply wrong. Consider yourself forewarned...

I bought this for my husband and he absolutely loves it. It provides helpful information about marinas in the area covered by the book. I cannot attest to the accuracy of the information but it does have contact info.

Just as advertised. We live in FL but have a pontoon boat. However, that doesn't keep us from heavy shark fishing! But I'm ready to go explore the rest of Florida's waterways.

Just what the Captain wanted. Good book with lots of help for "Boaters".
