good

My daughter didn’t like us buying the book that she has at school and making her do more school work. But, her grade in history has gone up to an "A".

Exactly what I thought it would be.

Great

My son lost his school book and used this one to replace it-very little wear and tear thanks again! yay

The authors are doing excellent job to educate youngsters. The books are needed to be appreciated and be read. For this book, just the touch and coverage of all ancients for the 6th-grader. Very good schematics in general; particularly, I like the Main-Ideas sections at the side

of pages. Thank you!Update: BTW, thanks to the sellers such as SchoolBooks4U2 who keeps these new/used textbooks circulating for home-school families!

In response to the review entitled "Parents Beware" : This is a textbook for 5th or 6th grade. Children that age are not developmentally able to perceive the nuances that you mentioned; but if they were, I would certainly agree that any religion can be looked at with a critical eye. Why stop with Islam? Why not go on to educate people about the horrors inflicted under the aegis of both Christianity and Judaism?
